Instructions to Claimant/Operator: Circle "Notice" (above) if proposed mining activity within the project area will disturb a total of five (5) acres or less during the calendar year. Circle "Plan of Operations" if disturbance will exceed five (5) acres during the calendar year or if operations are within one of the specially designated areas described in 43 CFR 3809.1-4(b). Complete the form in as much detail as possible. Additional sheets may be used if necessary. Use maps or sketches where appropriate (maps or sketches are required for submitted plans of operations and are recommended, but not required for submitted notices). A review of the 43 CFR 3809 regulations should be conducted prior to completion of this form and submission to the appropriate BLM office.

Vernon, Utah 84008

Dear Mr. Rowley;

Please find enclosed a map of Section 17 T.II S. R. 5 W.

with an APPROXIMATE diagram of how the Luck Garnet Lode mining  
claims lay. You have a map we submitted last year and this is

a second one with the Wolf private property drawn on it. If you need  
further information you will need to let us know; we can go out on the  
property with you but it would have to be in early November.

As I spoke with you on the phone before we did the assessment work,  
we have completed this year's required amount and it was all done on  
the drift and drill site on the #3 Lucky\_Garnet. Last year's work was  
in excess of the required amount but exactly as it was drawn on the map  
currently in your files.

BUREAU OF LAND MANAGEMENT  
RECEIVED

SEP 14 1992

Sincerely

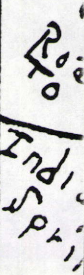

*Darrell C. Holden*

## Attachment 8

Proposed Operations: Maintain existing access roads to the property; including unimproved roads to the workings, according to specifications. Propose to lengthen cuts and remove overburden to further develop ore vein and mine ore found. Use of powder, slusher, mules, 4X4 trucks and other trucks. Slusher, and use of compressor. Also use of a Hossfield drill. Approximate area total proposed for disturbance not more than one acre at this time.

ATTACHMENT C

Undue degradation and erosion is occurring at the present time to the existing cut and drill site on the Good Luck # 3 lode mining claim caused by the annual motorcycle race that the DLM has permitted to occur in the area. Major erosion on the ridge coming down into the exact cut and drill site where the motorcycles have gone is creating many problems for our operation. Also the roads in the area and some that are not kept up and could go back into natural state are being torn up by the same annual race. Scars on the ridges and deep cuts across the roads are put there by the motorcycles during the race.

Location of Proposed Activity (i.e. Township, Range, Section):

Sec. 17 T.11S. R. 5W.

Describe Existing Disturbance and Structures or Indicate on Maps or Sketches (Mine and Mill Facilities, Workings, Tailings, Dump Areas, etc. It may be to your advantage to document existing disturbance with photographs):

Enclosed map of area claims lay in. Existing cuts are marked on the map on the claims as designated. Also roads, and all work done to the present time. Map enclosed is Attachment A

Proposed Operations: Describe the entire proposed operation, including all surface disturbing activities (road construction, drilling, trenching, backhoe and bulldozer exploration, mining, waste disposal, etc.). List all mechanized earth moving equipment to be used during the operation and state if any explosives are to be utilized. Describe and furnish a map or sketch, when applicable, showing existing surface disturbances, structures, facilities, etc., and the location and size of areas where surface disturbance are proposed, including existing and/or proposed routes of access. Calculate the total acreage proposed for disturbance (1 AC. = 43,560 sq. ft.). See Attachment B

Date Operations are Proposed to Commence as Outlined in this Submittal - (Month, Day, Year):

1 July 1991

As soon as possible.

Access Routes (Existing and Proposed)

See map Attachment A

Proposed Operations

See Attachment B

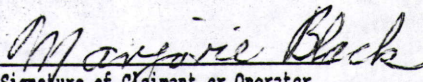

Proposed Completion Date

Intermittent; when weather allows.

Proposed Reclamation: Describe the proposed reclamation procedures and other measures to be taken to prevent unnecessary or undue degradation of the lands, including measures to be taken if a period of non-operation is anticipated.

Reasonable measures will be taken to prevent unnecessary or undue degradation of the federal lands during operations. Any dumps created from the cut extensions will be on a reclaimable angle; and to prevent erosion. In the cuts all overburden will be re-seeded and angled so no erosion will occur.

I hereby declare that I, or persons I have authorized to do so, will complete all necessary reclamation of areas disturbed during the course of my operations to the standards described in 43 CFR 3809.1-3(d) and that reasonable measure will be taken to prevent unnecessary or undue degradation of the federal lands during operations.

  
Signature of Claimant or Operator

Date

Notice to Claimants/Operators:

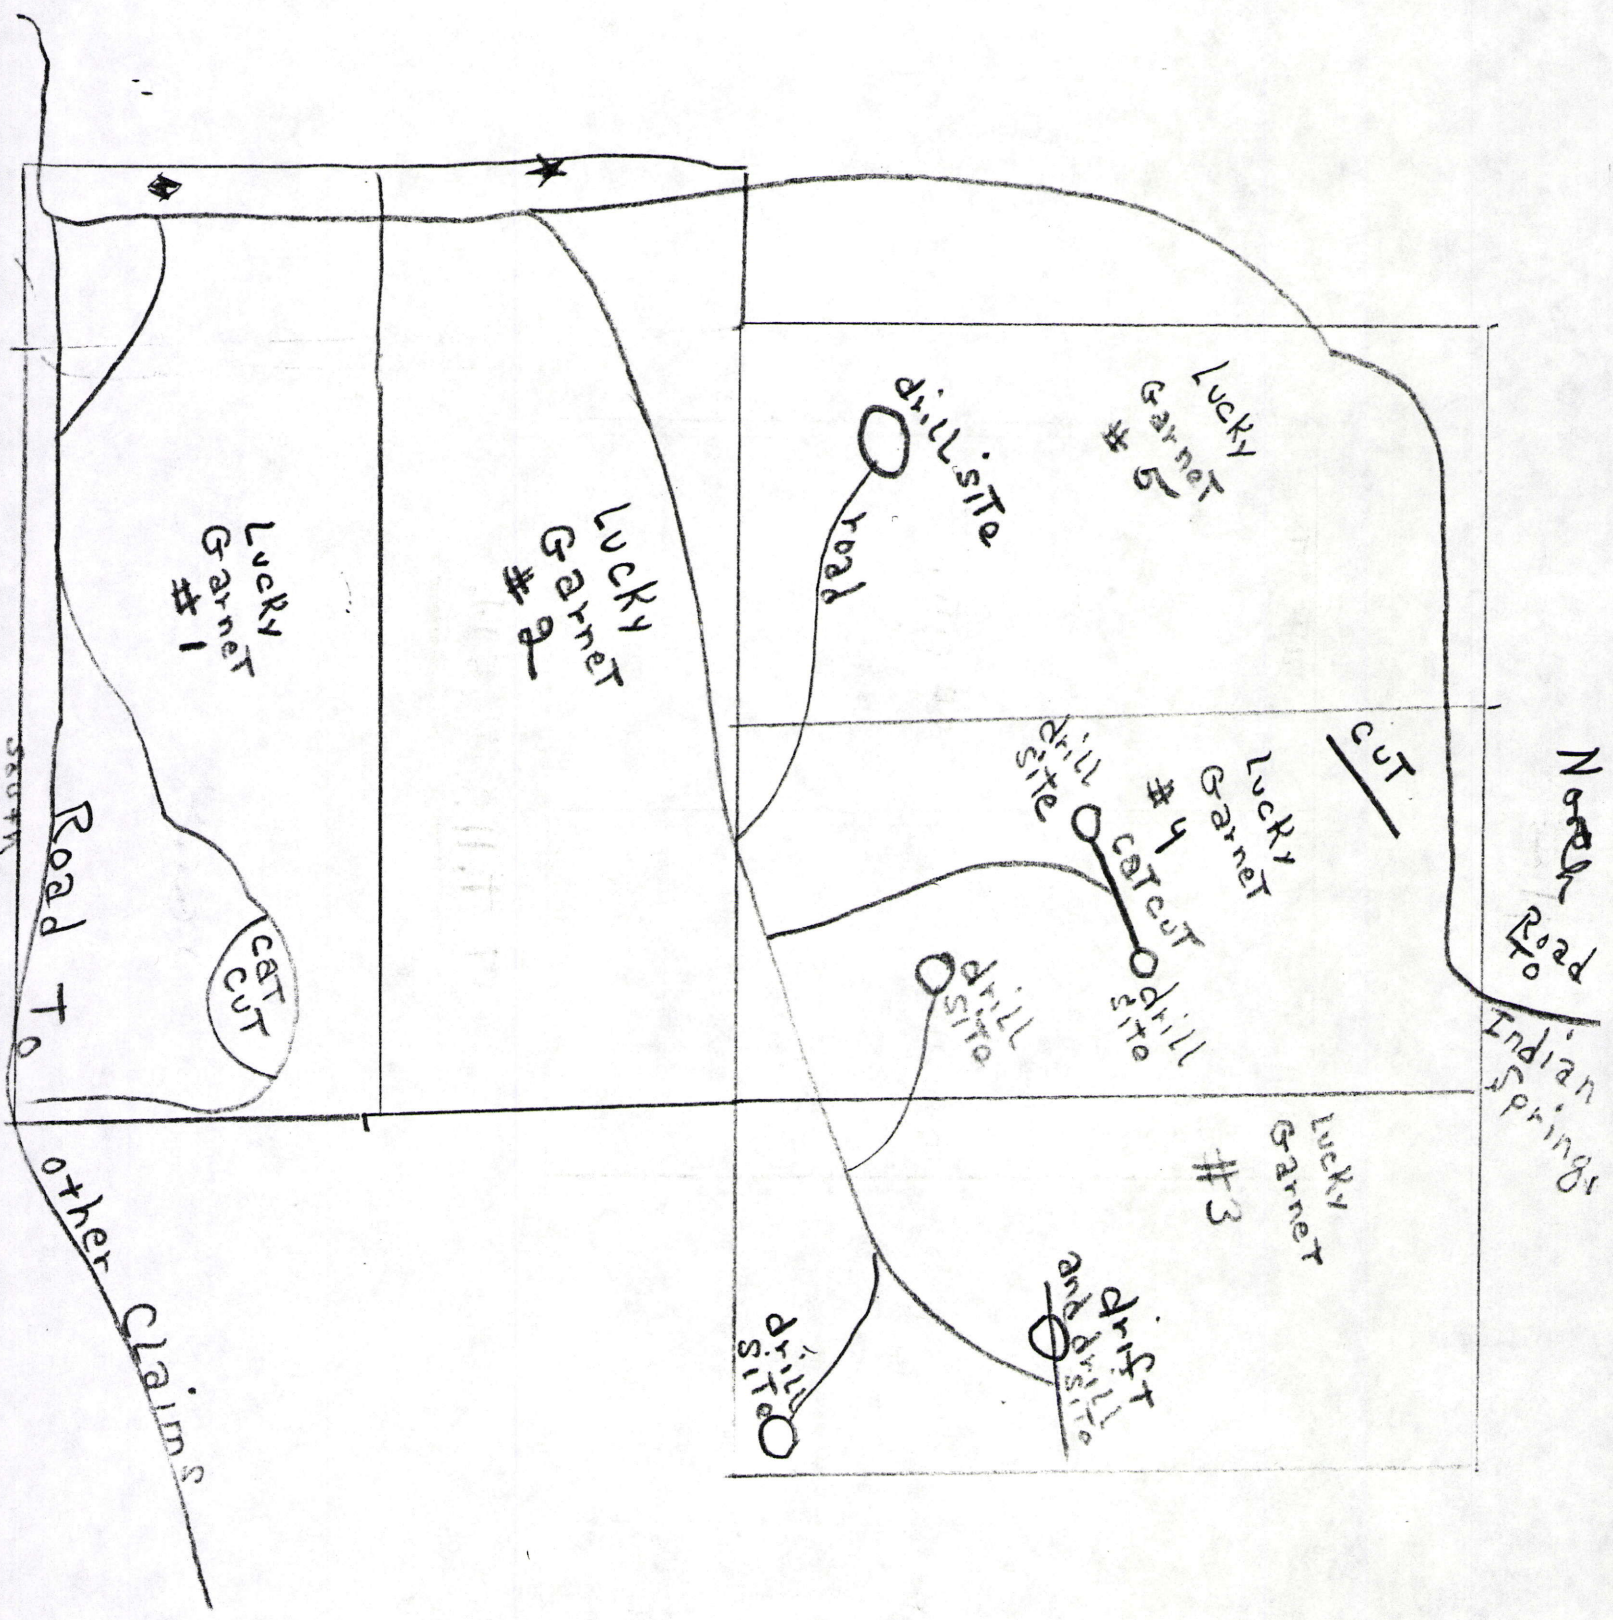

1. A notice submitted in relation to the 43 CFR 3809 regulations does not require approval from the BLM. However, notification of such activities shall be made at least 15 days before commencing operations. Approval of a submitted plan of operations is required from the BLM prior to commencing operations. The BLM will promptly acknowledge receipt of a plan and will notify the claimant/operator of the status of the plan within 30 days of receipt.
2. Approval of a plan of operations does not constitute certification of ownership to any person named as claimant/operator herein, nor does approval constitute recognition of the validity of any mining claims named herein.
3. Information and data submitted and specifically identified by the operator as containing trade secrets of confidential or privileged commercial or financial information should be attached to a separate page and cited in the text of the notice or plan of operations. This information will be filed separately by the BLM and will not be available for public inspection.
4. Failure of an operator to file a notice under 3809.1 - 3 or a plan of operations under 3809.1 - 4 will be subject to the operator, at the discretion of the authorized office, to being served a notice of non-compliance rejoined from the continuation of such operations by a court order within such time as a plan or notice is filed with the authorized officer.
